

# 240 FVS MACHINE GUN SUPPRESSOR

Caliber: 7.62X51mm to 8.6mm

CAGE: 8RC72 DUNS: 043893696

3D printed monolithic design using Haynes 282, a nickel based Super Alloy, the 240FVS is one of the most durable suppressors on the market to date. Designed specifically for the M240 Machine Gun, the 240 FVS is capable of sustained full-automatic fire while providing operators with sound, thermal, and flash mitigation.

The 240 FVS utilizes a forward venting monolithic design controlling cyclic rate while the internal Venturi and Venturi assist ports reduce back pressure, heat and bring cool air throughout the suppressor. The 240 FVS is protected by a high-temp infrared-retardant coating, providing signature reduction and a higher level of concealability.

## PRODUCT DETAILS

|                     |   |
|---------------------|---|
| SKU#                | 240FVS  |
| CALIBER             | 7.62X51mm to 8.6mm                              |
| MATERIAL            | Haynes 282                                      |
| COATING             | Alphatek Alpha Shield IR                        |
| ATTACHMENT METHOD   | Direct Thread                                   |
| SIGNATURE REDUCTION | Flash<br>Sound<br>Ground Disturbance<br>Thermal |

## BREATHABLE TECHNOLOGY™

## MEASUREMENTS\*

|          | imperial       | metric   |
|----------|----------------|----------|
| LENGTH   | 9.0 in         | 22.86 cm |
| DIAMETER | 2.08 in Max OD | 5.28 cm  |
|          | 1.8 in Min OD  | 4.57cm   |
| WEIGHT   | 3.0 lbs        | 1.36 kg  |

\*Weights and dimensions may vary based on manufacturing tolerances.
