

249 FVS MACHINE GUN SUPPRESSOR

Caliber: 5.56 mm NATO

CAGE: 8RC72 DUNS: 043893696

3D printed monolithic design using a nickel based Super Alloy, the 249 FVS is one of the most durable suppressors on the market to date. Designed specifically for the M249 SAW Squad Automatic Weapon, the 249 FVS is capable of sustained full-automatic fire while providing operators with sound, thermal, and flash mitigation.

The 249 FVS utilizes a forward venting monolithic design controlling cyclic rate while the internal Venturi and Venturi assist ports reduce back pressure, heat and bring cool air throughout the suppressor. The 249 FVS is protected by a high-temp infrared-retardant coating, providing signature reduction and a higher level of concealability.

PRODUCT DETAILS

SKU#	249FVS
CALIBER	5.56 mm NATO
MATERIAL	Haynes 282
COATING	Alphatek Alpha Shield IR
ATTACHMENT METHOD	Direct Thread
SIGNATURE REDUCTION	Flash Sound Ground Disturbance Thermal

BREATHABLE TECHNOLOGY™

MEASUREMENTS*

	imperial	metric
LENGTH	7.5 in	19.05 cm
DIAMETER	1.8 in Max OD	4.57 cm
	1.57 in Min OD	3.99 cm
WEIGHT	1.74 lbs	0.79 kg

*Weights and dimensions may vary based on manufacturing tolerances.
