762-GPS SUPPRESSOR

The GPS has a multitude of new developments, based on lessons learned, from making beltfed suppressors for the last three years. With that being said, the General Purpose Suppressor uses our Breathable Technology to allow the suppressor and weapon system to work together, while significantly reducing the negative effects of back pressure.

7.62-8.6 caliber, 3D printed, mounted via a taper lock flash hider, and requiring zero modification to the host weapon. Full Auto Rated, Forward Venting Breathable Technology for pressure stabilization, decreased felt blowback and back pressure to the host weapon. Proprietary I/R non-reflective coating.

- Complete Signature Reduction
- Heat Resistant 3D-Printed Design
- Minimal Point-of-Impact Shift
