556-GPS SUPPRESSOR

Caliber: 5.56mm

The GPS has a multitude of new developments, based on lessons learned, from making beltfed suppressors for the last three years. With that being said, the General Purpose Suppressor uses our Breathable Technology to allow the suppressor and weapon system to work together, while significantly reducing the negative effects of back pressure.

5.56 mm caliber, 3D printed, mounted via a taper lock flash hider, and requiring zero modification to the host weapon. Full Auto Rated, Forward Venting Breathable Technology for pressure stabilization, decreased felt blowback and back pressure to the host weapon. Proprietary I/R non- reflective coating.

PRODUCT DETAILS

SKU#	BT-556GPS
CALIBER	5.56 mm
MATERIAL	Haynes 282
COATING	High Temp Cerakote or Alphatek Alphashield IR
ATTACHMENT METHOD	KFM - MG Taper Mount QD
SIGNATURE REDUCTION	Flash Sound Ground Disturbance Thermal

BREATHABLE TECHNOLOGY™

MEASUREMENTS*	imperial	metric
LENGTH	7.5 in	190.5 mm
DIAMETER	1.75 in Max OD	44.5 mm
	5.56 - .290" Bore Diameter	5.56 - 7.36mm Bore Diameter
WEIGHT	23.5 oz	.665 kg

*Weights and dimensions may vary based on manufacturing tolerances.

KFM TAPER MOUNT FLASH HIDER INCLUDED
