## 338-GPS SUPPRESSOR

The RD 338-GPS Suppressor is engineered for 8.6mm and .338 Lapua/ Norma general-purpose machine guns at the core of next-generation infantry combat. Whether advancing with assault elements or delivering sustained fire from a support-by-fire position, the 338-GPS delivers the reliability, control, and signature reduction modern warfighters demand.

Built for extreme conditions, it features RD's proprietary Breathable Technology® gas management system to reduce back pressure, felt recoil, and toxic gas exposure—resulting in smoother cyclic rates, less weapon wear, and improved shooter control. From dismounted patrols to fire support overwatch, the RD 338-GPS Suppressor gives machine gunners the edge: less signature, more control, no compromise.

- **Complete Signature Reduction**
- **Heat Resistant 3D-Printed Design**
- **Minimal Point-of-Impact Shift**
